2. Presentation of proposed ball diamond. Thanks to Brenda Funk for presenting ideas for a proposed ball diamond. Generally a luke-warm response from the committee, stating that the previous diamond was under-used. Perhaps the previous diamond was not promoted.
3. Discussions around renovations to the Community Centers – proposed paint and carpet with a favorable response.
4. Garbage cans on the beach and washrooms. Recommended 3 garbage cans, two for normal use and one for recycling. Recommended that if porta-potties are not practical for the beach area, at least the existing washrooms be cleaned.
